

WHO ARE WE

BLINK is a bespoke hospitality design group tailoring intuitive and inventive solutions for our clients. At BLINK, we understand that perception happens a lot quicker than we imagine. Within a blink of an eye, decisions are made, visions are born and change occurs. BLINK orchestrates the senses and interplay of visual elements in those few moments, creating a distinct and irreplaceable experience.

Our portfolio includes building, interior and brand design. BLINK operates out of Bangkok Singapore, Delhi and Shanghai and has collectively designed award-winning hotels, resorts, restaurants, clubs, spas, and residences for leading global brands.

BLINK's eye-catching aesthetics and clarity of vision have made it the hot ticket with luxury brands including Conrad, Regent, Six Senses, Hyatt, Jumeirah, in countries such as China, Indonesia, India, Istanbul, Kenya, Maldives, Myanmar, Singapore, Thailand, and Vietnam. BLINK has also collected industry accolades such as the prestigious Hospitality Design Award 2012 for Conrad Sanya Haitang Bay as well as Conde Nast International Traveller Hot List 2012 and Asia Pacific Interior Design Award (APIDA) 2012 Silver award for Hotel Space for Jumeirah Dhevanafushi Resort, Maldives. Most recently Regent Phuket Cape Panwa was awarded the Gold Key Finalist for Best Resort, International Property Awards 2014 and APIDA Silver Award for Hotel Space and Regent Bali winning the coveted spot on the Condé Nast Traveller Hot List 2014.

Master Planning

The big idea. - How does a design truly distinguish itself? It all boils down to that first moment of encounter, the synergy, the overarching story that unravels. A revelation that can only come to pass when inspired Master Planning is at play. Accolades? Sure. Our award-winning team of associates are constantly in pursuit of diverse set of challenges that will drive macro-strategic planning and zonal segregation to a different level - one that is set apart by drawing from intuitive expertise, research and a desire for the extraordinary. In the broader picture, BLINK Master Planning sets a clear framework to streamline a large and otherwise complex project, and in turn a springboard for a myriad of creativity in design.

Building Design

Going beyond form and structure. - By reinventing boundaries, shapes and substances that form a mental picture of a structure, design takes on a whole new significance, exceptionally so, when bespoke and tailored. A truly successful benchmark would be the creation of a form that emanates the insights of seamless function and intuitive design. End result? Masterful perfection - soulfully executed.

Interior Design

Intricate detailing. - Interiors have the power to accentuate. But far more than that, they have the power to create elegant juxtapositions that come alive with a multi-faceted story. Interlace seamless transitions from exteriors to define an extraordinary cocoon. An experiential realm of its own. By shaping strategies, design plans, 3D visualization and animation, interiors will form a cohesive story and strengthen the bonds and interactions that resuscitate and invigorate a space.

Brand Design

Creating authentic preference. - Pumping in hordes of marketing dollars may obtain a physical presence but it may not buy authentic preference. One that's derived from the true gut feeling of an individual about a brand. BLINK goes beyond the scope of a design house. By integrating brand identity strategies that transcend the scope of the final completion of the project, we put in place a framework that enables a brand to live on, evoking desire and influence. It's the thinking beyond the technical know-how. And we'd like to call this our silver bullet, one that propels the spectrum of design. As stewards of each of our client's overall corporate image and brand, our clients have embraced our corporate identity, brand strategy and marketing collateral design services and discovered novel perspectives in the process.
